Amy Dixon	234 15th St SE Mason City, IA 50401	641-210-2608	amy@lamontfinancialgroup.com	A new building option seems like the best option.
Bill Kyle	3129 Hwy 18 Charles City, IA	641-330-4599	bill@northiowaair.com	I prefer Option A due to less disruption during construction and the lack of the additional 4000 sq ft of ramp space needed in Option B.
Perry Harrison	31 12th St NW Mason City, IA 50401	641-420-7617	augstagogo@gmail.com	I would prefer to see the existing facility kept. The new section could be added (Option A) The existed facility could be incorporated as office, etc. Chair: Historic Preservation Commission
Lincoln			lincolnjost@gmail.com	Hi I am Lincoln and I see consideration of renovating or remodeling this airport. As someone who has a family history of flying and pilots, please please please do!! We have such a beautiful place for, and currently a wonderful airport. Our communities in North Iowa need this, to help our growth and development. Looking forward and praying for what's to come and those involved in the decision making process. Thank you all!! What a fantastic opportunity for this airport and our communities!!!
Dalena Barz	341 South Yorktown Pike Mason City, IA 50401	641-425-8616	dalena.barz@alphamediausa.com	My opinion is to build a new terminal to the west. Seems like the best option- won't interfere with day to day operations. Would be seamless to transfer operations. Thanks
